

FRUIT AND VEG BOXES

The Whittlesea Food Collective Market is a social enterprise working towards creating a more equitable local food system. In addition to our weekly market, we deliver seasonal fruit and veg boxes within the City of Whittlesea to increase access to fresh, affordable, culturally appropriate and locally grown foods.

Each box contains a variety of seasonal produce, predominately sourced from Victorian farms. We aim to source locally where possible to ensure the freshest and highest quality produce. Buying local also benefits the environment by reducing harmful emissions associated with food miles.

We offer:

- Free delivery- if you live in the City of Whittlesea, or pick up from the Food Collective in Epping
- Optional dry goods including local honey, eggs, lentils and chickpeas.
