A Brief Insight into Midas the Monkey and Class 2A

Assalamu aleikum, and welcome to our stories with Midas, our class mascot monkey (he's really a sloth but thinks of himself as a monkey!), who accompanied every student from class 2A home during 2022.

Midas befriended every student to encourage them at first to think of an exciting adjective when they thought of him. I have included these adjectives on the next page.

This worked so well that Midas decided to go home with every student and help them write about their experience with him during their sleep overs. Midas 'informed' me that he behaved very well and I actually believed him at first, until the students started telling us their stories....

Here is what actually happened !

On Saturday I asked Midas if he wanted to go downstairs but he didn't answer which could only mean one thing, he was sleeping, so I went downstairs and Midas slept the whole day.

On Sunday, I woke Midas up and we went downstairs together to watch TV but my mum said we were going shopping, so I got ready and asked my Dad if I could bring Midas but he said no so I let Midas sit on the couch. When my family got back home, we had showered.
